## Statement of Collaboration (check all that apply):

I worked on this assignment entirely on my own, with help only from the the instructor and/or teaching assistants.

I received help from the following people or sources (other than the instructor or teaching assistants).

**The answers and/or code submitted herein are my own work; none were copied from any other individual(s).**

I worked on some or all of this assignment with the following CSCI 2300 students, and was an active participant in the collaboration.

**The answers and/or code submitted herein are my own work; none were copied from any other individual(s).**

I had to use someone else's code for portions of this assignment, and know I will receive credit only for code I personally wrote.

(Indicate what code was received from someone else by drawing a box(es) around it, and write the person's name next to each box.)

*Note: This option is only pertinent to programming assignments.*

**It is a violation of the academic integrity policy to take credit for someone else's work, so be careful so complete this form accurately.**
