By signing below, I agree that:

- The requirements for the project are to be fulfilled according to the calendar set forth by the Computer Science Faculty

- Changing projects or groups will not be permitted

- Different members of the team might earn different grades for the course.

- Grades for CSCI 4961 will be determined based only on the work done during that course; likewise, grades for CSCI 4962 will be determined based only on the work done during that course.

- A passing grade in CSCI 4961 is a prerequisite for enrollment in CSCI 4962.

- A failing grade in CSCI 4962 might result in re-enrollment in CSCI 4961 with a new project

- All project artifacts and underlying materials (e.g., source code, configuration files, etc) will be submitted electronically in a repository that is accessible to both the project supervisor and course instructor.
