

Final Exam Information

- The final exam for this course will be on Friday, 12 May 2006, from 12:00–1:50pm.
- This exam is closed book and no calculating devices of any type will be allowed. You are allowed, however, to prepare in advance *both sides* of an 8.5×11 sheet of paper with whatever notes you wish to place on it, and you may use this page during the exam. When the exam is over, please submit this sheet with the rest of your exam.
- The potential coverage of material will be as follows. Approximately 50% of the questions will cover “new” material, that is topics which were introduced since the last exam. Specifically, this range include coverage of lectures from Monday, 3 Apr 2006 through Friday, 5 May 2006, as well as the associated readings and assignments for those topics (please see the class schedule for exact coverage).

The remainder of the exam will be cumulative, revisiting *major* topics from the first two-thirds of the course.
