Midterm 2 Information

- The second midterm will be on Monday, 4 Apr 2005, from 12:00–12:50 p.m.

- This exam is closed book and no calculating devices of any type will be allowed. You are allowed, however, to prepare in advance *the back of this page* with whatever notes you wish to place on it, and you may use this page during the exam. When the exam is over, staple this sheet to the rest of your exam.

- The exam will primarily cover lectures, reading, labs and assignments from Monday, 14 Feb 2005 through Wednesday, 23 Mar 2005 (please see the class schedule for exact coverage). Though not intended to be a *cumulative* exam, some overlap with earlier topics is unavoidable.

- Typical questions will include identifying errors in a given code fragment, simulating a given code fragment, or writing small code fragments.
