

Curriculum Vitæ

Michael Herbert Goldwasser

(February 2020)

CONTACT INFORMATION

Address: Department of Computer Science
Saint Louis University
220 North Grand Blvd.
St. Louis, MO 63103-2007

Phone: (314) 977-6667
Email: michael.goldwasser@slu.edu
Web: <http://cs.slu.edu/~goldwasser>

BRIEF BIOGRAPHY

Michael H. Goldwasser is a Professor and Chairperson in the Department of Computer Science at Saint Louis University. Dr. Goldwasser's research interests are in the design and analysis of algorithms. Particular interests lie in the area of online computation and approximation algorithms, with applications in scheduling and bioinformatics. He is also active in the Computer Science education community.

EDUCATION

Stanford University, Stanford, California
Ph.D. in Computer Science (with *distinction in teaching*), September 1997
Dissertation: Complexity Measures for Assembly Sequencing
Advisor: Professor Rajeev Motwani

Brown University, Providence, Rhode Island
Sc. B. in Mathematics & Computer Science (*magna cum laude*), June 1991
Advisor: Professor Roberto Tamassia

Ladue School District, St. Louis, Missouri
Horton Watkins High School 1983–1987
Ladue Junior High School 1981–1983
Spoede Elementary School 1974–1981

PROFESSIONAL EXPERIENCE

Saint Louis University, St. Louis, Missouri
Chair of Computer Science 2016–present
Professor 2011–present
Director of Computer Science 2010–2016
Associate Professor 2006–2011
Assistant Professor 2003–2006

Loyola University, Chicago, Illinois
Assistant Professor, Department of Computer Science 2002–2003
Undergraduate Program Director for Computer Science 2000–2002
Assistant Professor, Department of Mathematical and Computer Sciences 1999–2002

| | |
|--|-------------|
| Colorado College , Colorado Springs, Colorado | |
| Visiting Assistant Professor, Division of Natural Science | summer 2002 |
| Princeton University , Princeton, New Jersey | |
| Department of Computer Science, Lecturer | 1997–1999 |
| DIMACS , Center for Discrete Math. and Theoretical Computer Science | |
| Postdoctoral Fellow | 1997–1999 |
| Stanford University , Stanford, California | |
| Department of Computer Science, Teaching Fellow | 1997 |
| Department of Computer Science, Teaching and Research Assistant | 1992–1997 |
| Brown University , Providence, Rhode Island | |
| Department of Computer Science, Teaching Assistant | 1988–1991 |
| Consulting and Internships | |
| IBM Almaden Research Center (1996), Digital System Research Center (1992), Sun Microsystems (1991), Microsoft Corporation (1990), Central Institute for the Deaf at Washington University (1988,1989). | |

AWARDS AND HONORS

- James H. Korn Scholarship of Teaching and Learning Award, (Saint Louis Univ.) 2008
- DIMACS Postdoctoral Fellowship 1997–1999
- Graduated with *Distinction in Teaching* (Stanford University) 1997
- Co-winner of *Best Paper Award* in AI/Feature-Based Design and Manufacturing, ASME International Computers in Engineering Conference 1995
- Graduated *magna cum laude* (Brown University) 1991
- Departmental Undergraduate Prize for Excellence in Computer Science

MAJOR ADMINISTRATIVE ACCOMPLISHMENTS

- Advocated for and oversaw the creation of an independent Department of Computer Science, launched in July 2016 (previously within the former Department of Mathematics and Computer Science).
- Oversaw proposal and launch of new academic programs:
 - MS in Bioinformatics and Computational Biology (jointly with biology, chemistry, math/stat). Board of Trustees approval in January 2014, effective August 2015.
 - MS in Computer Science and MS in Software Engineering. Board of Trustees approval in April 2017, effective August 2018.
 - BS in Data Science (jointly with math/stat). Board of Trustees approval in April 2018, effective August 2019.
 - MS in Artificial Intelligence. Board of Trustees approval in February 2020, effective August 2020.
- Oversaw growth of the CS program (as Director/Chair), evidenced by the following metrics:
 - Student credit hours taught rising from 1233 in AY10-11 to 2944 in AY19-20.
 - Undergraduate CS majors rising from primary headcount of 41 students in Fall 2010 to 125 students in Fall 2019.
 - Number of faculty rising from 6.5 FTE in Fall 2010 to 13 FTE as of Fall 2020.
 - Research expenditures rising from \$139K in FY2015 to \$416K in FY2019.

FUNDING**EXTERNAL**

- “*Bioinformatics Training with Industry Support and Engagement.*” 2016–2021
\$649,681, National Science Foundation award DUE-1564894 from the S-STEM program.
Michael H. Goldwasser (PI), Tae-Hyuk Ahn, Gerardo Camilo, Jack Kennell, David Letscher (coPIs).
- “*Silicon Mechanics Research Cluster Grant,*” 2012
HPC equipment valued at \$77,250, Silicon Mechanics
Gerardo Camilo, James Ginther, Michael Goldwasser, Justin Goodson, Charles Kirkpatrick, Michael Lewis, Mark McQuilling, Brent Znosko, Keith Hacke.
- “*Maximizing Resource Utilization through Admission Control,*” Aug. 2002–Aug. 2006
\$199,602, National Science Foundation awards CCR-0208987, CCR-0417368
from the CISE Theory of Computing Program, Michael H. Goldwasser (PI)
- “*The Effect of Slack on Competitiveness for Admission Control,*” 2001
\$6,000, Loyola University Summer Stipend award.

INTERNAL

- “*Big Idea Planning Grant: Artificial Intelligence at SLU.*” 2019–2020
\$20,000, SLU Research Institute.
Mamoun Benmamoun, Flavio Esposito, Michael H. Goldwasser, Srikanth Gururajan, Steven Smart (Investigators).
- “*Studying the Relationship Between Stress and Alcohol Use Among College Students with the Collection of Real-time Data.*” 2018–2019
\$42,737, SLU Presidential Research Fund
Enbal Shacham (PI), Michael H. Goldwasser, Tony Buchanan (coPIs).

PUBLICATIONS**BOOKS**

- [1] Michael T. Goodrich, Roberto Tamassia, and Michael H. Goldwasser. *Data Structures & Algorithms in Java (Sixth Edition)*. Wiley, 2014. ISBN: 978-1-118-77133-4. 736 pages.
- [2] Michael T. Goodrich, Roberto Tamassia, and Michael H. Goldwasser. *Data Structures & Algorithms in Python*. Wiley, 2013. ISBN: 978-1-118-29027-9. 768 pages.
- [3] Michael H. Goldwasser and David Letscher. *Object-Oriented Programming in Python*. Prentice Hall, 2008. ISBN: 978-0-13-615031-2. 700 pages.

EDITED BOOKS

- [4] Michael H. Goldwasser, David S. Johnson, and Catherine C. McGeoch (Eds). *Data Structures, Near Neighbor Searches, and Methodology: Fifth and Sixth DIMACS Implementation Challenges*. Volume 59 of AMS-DIMACS book series, Dec. 2002.

DISTRIBUTED SOFTWARE PACKAGES

- [39] `cs1graphics` is an object-oriented Python graphics module specifically designed for pedagogical use (see [14,29]). Available at <http://www.cs1graphics.org>.
- [40] `hteam`s is a C program used for sequence analysis for bioinformatics (see [8,20]). Available at <http://cs.slu.edu/~goldwasser/homologyteams>.
- [41] `Gentle Introduction to Linked Lists` is a Java applet which provides an interactive activity for students, used in exploring and reinforcing conceptual material (see [32]). Available at <http://cs.slu.edu/~goldwasser/demos/linked>.
- [42] `autograde` is a Perl script which automates the execution of student programs on various test inputs provided by the instructor and other students (see [23]). The script is designed for use on a Unix/Linux system. Available at <http://cs.slu.edu/~goldwasser/autograde>.
- [43] `arrange` is a package for partially dynamic maintenance of arrangements of polygons on the sphere, with point location (see [34]). It also handles lines and line segments, as well as arrangements in the plane. It is included in the Stony Brook Algorithm Repository, where it is given a rating 9 of 10, and it is included in Nina Amenta's Directory of Computational Geometry Software. Available at <http://cs.slu.edu/~goldwasser/arrange>.

PRESENTATIONS AT PROFESSIONAL MEETINGS

- **Midwest Bioinformatics Conference** – Columbia, Missouri 12 April 2018
Panelist
- **SIGCSE** – Denver, Colorado March 2013
Poster: *Interactive Exploration of Huffman Coding*.
- **Lambda Lounge** – St. Louis, Missouri 2 September 2010
Invited Speaker: *Picking a Language for Teaching CS1*
- **SWAT** – Bergen, Norway 23 June 2010
Paper: *Dispatching Equal-length Jobs to Parallel Machines to Maximize Throughput*
- **PyCon** – Chicago, Illinois 26 March 2009
Tutorial: *Introduction to Object-Oriented Programming*
- **SIGCSE** – Chattanooga, Tennessee 6 March 2009
Paper: *A Graphics Package for the First Day and Beyond*
- **ITiCSE** – Madrid, Spain 30 June / 1 July 2008
Paper: *Teaching an Object-Oriented CS1 — with Python*.
Demonstration: *A Python Graphics Package for the First Day and Beyond*.
Panel: *Scrambling for Students: Our Graduates are Sexier than Yours*.
- **OOPSLA, Educators' Symposium** – Montreal, Quebec, Canada 22 October 2007
Paper: *Teaching Strategies for Reinforcing Structural Recursion with Lists*
Demonstration: *A Graphics Package for the First Day and Beyond*
- **SIGCSE** – Convington, Kentucky 9 March 2007
3-hour Workshop: *Teaching Object-Oriented Programming in Python*
- **MAPSP** – Siena, Italy 9 June 2005
Paper: *The Effect of Patience and Restarts for the Online Scheduling of Equal-length Jobs*.

- **RECOMB** – San Diego, CA 30 March 2004
Paper: *Identifying Conserved Gene Clusters in the Presence of Orthologous Groups.*
- **Midwest Theory Day** – Chicago, IL 7 December 2002
Paper: *Linear-time Algorithms for Computing maximum-density Sequence Segments with Bioinformatics Applications.*
- **SODA** – Baltimore, MD 18 January 1999
Paper: *Patience is a Virtue: the Effect of Slack on Competitiveness for admission control.*
- **CGC Workshop on Computational Geometry** – Baltimore, MD 11 October 1996
Paper: *Intractability of Assembly Sequencing, AND/OR Scheduling, and Removing a unit Disk.*
- **ICRA** – Minneapolis, MN 25 April 1996
Paper: *Complexity Measures for Assembly Sequences.*
- **SoCG** – Vancouver, British Columbia 5–7 June 1995
Poster: *An Implementation for Maintaining Arrangements of Polygons.*

COURSES TAUGHT

- **Saint Louis University** 2003–present
 - CSCI 1010: Introduction to Computer Science: Principles (4 times)
 - CSCI 1020: Introduction to Computer Science: Bioinformatics (2 times)
 - CSCI 1050: Introduction to Computer Science: Multimedia (2 times)
 - CSCI 1060: Introduction to Computer Science: Scientific Programming (1 time)
 - CSCI 1300: Introduction to Object Oriented Programming (4 credits) (10 times)
 - CSCI 1890: Object-Oriented Practicum (1 credit) (10 times)
 - CSCI 2100: Data Structures (4 credits) (10 times)
 - CSCI 2190: Computational Problem Solving (1 credit) (13 times)
 - CSCI 2300: Object-Oriented Software Design (2 times)
 - CSCI 3100: Algorithms (6 times)
 - CSCI 3710: Databases (2 times)
 - CSCI 3760: Artificial Intelligence (2 times)
 - CSCI 4930: Special Topics — Computational Geometry (1 time)
- **Loyola University** 1999–2003
 - COMP 125: Introductory Programming (1 time)
 - COMP 150: Introduction to Computer Science (4 times)
 - COMP 271: Structured Programming & Data Structures (4 times)
 - COMP 363: Design and Analysis of Computer Algorithms (1 time)
 - COMP 460: Algorithms & Complexity (1 time)
- **Colorado College** Summer 2002
 - NS 121: Introduction to Digital Computing
- **Princeton University**
 - COS 423: Theory of Algorithms Spring 1998
 - COS 598f: Advanced Topics in CS — Randomized Algorithms Spring 1999
- **Stanford University** Summer 1996
 - CS 161: Algorithms and Data Structures

STUDENTS SUPERVISED

- Eric Adams, Adam Ezelgot, Alex Rapach, BS students, Saint Louis University 2018–2019
Capstone Project – Historic St. Louis website
- Jake Bernstein, Laurel Button, Emily Ferretti, BS students, Saint Louis University 2017–2018
Capstone Project – Digital History: Macelwane Cemetery Project
- Blake Braun, Ryan Murphy, Eric Ramos, BS students, Saint Louis University 2017–2018
Capstone Project – Technology Improvements for the SLU Ride Operations
- Alex Lambrecht and Samiksha Mailarpwar, BS students, Saint Louis University 2017–2018
Capstone Project – Real-time Mobile Survey of Social Science Research Participants
- Alex Lambrecht, BS student, Saint Louis University Spring 2017
Independent Study – Algorithms
- Nicholas Anderson, Joey Gao, Eric Whitman, BS students, Saint Louis University 2017
Capstone Project – Virtual Reality Drone Operator
- Brennan Govreau and Jordan Govreau, BS students, Saint Louis University 2016
Capstone Project – Graphical Modeling of Biological Systems in Education
- Matt Meyer and Luke Reichold, BS students, Saint Louis University AY2015–2016
Capstone Project – Monitoring Patients’ Cardiovascular Health via Common
Wearable Fitness Devices
- Dylan Lawrence, BS student, Saint Louis University Spring 2015
Independent Study – Computational Geometry
- Nick Lewchenko, BS student, Saint Louis University AY2014–2015
Capstone Project – Educational Animations and Interactives in HTML5/JavaScript
- Andrew Wiltz, BS student, Saint Louis University Spring 2014
Capstone Project – The Game Theory of Machine Scheduling
- Chris Porter, BA student, Saint Louis University AY2013–2014
Capstone Project – **cs1graphics**: A Case Study in Multithreaded Programming
- Michael Wagner, BS student, Saint Louis University AY2012–2013
Capstone Project – Exploring a Data Set with Derived Formulas
- Michael Schade and Xinnian Zheng, BS students, Saint Louis University Fall 2011
Independent Study – Computational Geometry
- Cory Lampkin, BS student, Saint Louis University Fall 2011
Capstone Project – Online Survey Software
- Rebecca Asbury, BA student, Saint Louis University Spring 2011
Capstone Project – Improved E-Prime Scripting Environment
- Peter Zylka, BS student, Saint Louis University Spring 2011
Capstone Project – Analysis of Algorithms Using Game Theory
- Ian Schillebeeckx, BS student, Saint Louis University Fall 2010
Capstone Project – Stock Prediction with Neural Networks
- Mary Ezzelgot, BS student, Saint Louis University Fall 2010
Capstone Project – e-Commerce for a Building Supply Company
- Sam Jantz, BS student, Saint Louis University Spring 2010

- Capstone Project – Evaluating Speech Recognition Systems
- Charlie Andrus, BS student, Saint Louis University Spring 2009
Capstone Project – iPhone Support for Medical Applications
 - Ananth Mohan, BA student, Saint Louis University Fall 2008
Capstone Project – Recursion Visualizer
 - Elvis Hsin-Hui Wu, PhD student in IAS program, Saint Louis University Fall 2008 – Fall 2011
Secondary Thesis Advisor
 - Matt Dalton, BA student, Saint Louis University Spring 2008
Senior Design Project – Graphical Huffman Coder
 - Mark Pedigo, PhD student, Saint Louis University AY2005–2006
Research Assistant – Maximizing Resource Utilization through Admission Control.
Graduate Reading Course – Machine Scheduling
 - Joe Malburg, BS student, Saint Louis University Spring 2005
Senior Design Project – BBC Movie Scheduler.
 - Arundhati Bagchi, MA student, Saint Louis University AY2004–2005
Research Assistant – Maximizing Resource Utilization through Admission Control.
Graduate Reading Course – Machine Scheduling
 - Marina Dombrovskaya, BA student, Saint Louis University Fall 2004
Independent Study – Algorithms.
 - Marshall Margeneau and Matt Chambers, BS students, Saint Louis University Spring 2005
Senior Design Project – Student Submission System.
 - Feven Atnafu (Research Assistant), BS/MS student, Loyola University Fall 2002–Spring 2003
Maximizing Resource Utilization through Admission Control.
 - Xin He, MS student, Loyola University Fall 2002
Independent Study – Algorithms in Bioinformatics.
 - Min Wang, MS student, Loyola University Summer 2000
Programming Project – Animating an Euler Tour on a Tree.
 - Boris Kerbikov, BS student, Princeton University 1998–1999
Senior Thesis – Admission Control with Immediate Notification; see [10].

PROFESSIONAL SERVICE

- **Member of Review Panel, National Science Foundation** 2016, 2017
- **Higher Education Representative**
AP Computer Science A Standard Setting Panel 2016
- International Collegiate Programming Contest (ICPC)
Judge, World Finals 2015–2018
Regional Chief Judge, Mid-Central Region 2010–2016
- **Reviewer**
K-12 Aspirations in Computing award AY2016–17
sponsored by the National Center for Women & Information Technology (NCWIT)
- **External Reviewer**

- Southern Illinois University–Edwardsville, Graduate Computer Science Program 2014
 Fontbonne University, Computer Science and Information Science Curricula 2004
- **Paid Reviewer** for textbook proposals and revisions:
 - Algorithm Design*, Kleinberg and Tardos (Addison Wesley) 2008
 - CS0 text, unpublished (Pearson Education) 2005
 - Explorations in Computer Science: A Guide to Discovery*, Meyer (Jones & Bartlett) 2002
 - Introduction to Algorithms*, Cormen, Leiserson, Rivest, Stein (McGraw Hill) 1998
 - **Birds-of-a-Feather Organizer**
 - Python in Education*, 40th Annual SIGCSE Technical Symposium on Computer Science Education, Chattanooga, Tennessee 5 March 2009
 - **Program Committee Member**
 - First International Conf. on Algorithmic Applications in Management (AAIM) 2005
 - **Session Chair**
 - 35th Annual SIGCSE Technical Symposium on Computer Science Education, St. Louis, Missouri Feb. 2005
 - Sixth DIMACS Implementation Challenge on Near-Neighbor Searches
 - Challenge Coordinator** and Steering Committee member 1998–2000
 - Workshop Coordinator** 15 January 1999
 - **Referee** of technical papers for:
 - ACM Journal on Educational Resources in Computing (1), ACM Symposium on Computational Geometry (2), ACM/SIAM Symposium on Discrete Algorithms (5), ACM Symposium on Parallelism in Algorithms and Architectures (1), ACM Symposium on Solid Modeling and Applications (1), ACM Symposium on the Theory of Computation (7), SIAM Journal on Discrete Mathematics (1), Algorithmica (9), Asian Computing Science Conference (1), ASME J. of Manufacturing Sciences and Engineering (1), Computers & Industrial Engineering (1), Euro-Par (1), European Symposium on Algorithms (2), IEEE Infocom (1), IEEE Transactions on Computational Biology and Bioinformatics (2), IEEE Transactions on Robotics and Automation (2), Information Processing Letters (6), Int. Conf. on Algorithms and Complexity (1), ITiCSE Conference on Innovation and Technology in Computer Science Education (8), J. of ACM (1), J. of Algorithms (1), J. of Scheduling (4), Latin American Symposium on Theoretical Informatics (1), SIAM J. of Computing (5), SIGCSE Technical Symposium on Computer Science Education (27), Theoretical Computer Science (1), Theory of Computing (1).

UNIVERSITY SERVICE

- **Saint Louis University**
 - Chair of Computer Science Fall 2016 – present
 - Director of Computer Science Fall 2010 – Spring 2016
 - Coach for annual ACM-ICPC Programming Contest 2003 – present
 - Reviewer for SLU’s Presidents Research Funds Awards 2010, 2011, 2016
 - Panelist, *Advancing Interdisciplinary Research and Teaching at SLU* 30 October 2017
 - Reviewer for SLU’s Beaumont Faculty Development Fund Awards 2010
 - College Marshall at University Commencement 2011

- Committee Membership

| | |
|---|---------------------|
| <i>Search Committee for Computer Science/Bioinformatics Faculty</i> | AY2018–2019 |
| <i>Science and Engineering Research Council</i> | 2018–current |
| <i>Chair of Search Committee for Director of School of Engineering</i> | 2018 <i>Faculty</i> |
| <i>Advisory Committee, Career Services</i> | 2017–current |
| <i>Search Committee for Computer Science Faculty</i> | AY2017–2018 |
| <i>1818 Computer Science Liaison</i> | 2017–2019 |
| <i>chair representative</i> | 2017–2018 |
| <i>Research Technology & Computing ad hoc working group</i> | 2017 |
| <i>College Faculty Mentoring & Advising Committee</i> | AY2014–2015 |
| <i>Center for Digital Humanities, Advisory Board</i> | AY2014–2015 |
| <i>Search Committee for One-year Computer Science Faculty (chair)</i> | AY2014–2015 |
| <i>Search Committee for Computer Science/Bioinformatics Faculty</i> | AY2014–2015 |
| <i>College Rank and Tenure Committee</i> | 2012–2014 |
| <i>Masters in Bioinformatics and Computational Biology</i> | |
| <i>Steering Committee</i> | 2014–present |
| <i>Ad Hoc Development Committee (Chair)</i> | 2011–2014 |
| <i>Professional Sciences Masters, ad hoc Development Committee</i> | 2012–2014 |
| <i>Task Force for Center of Informatics/Computing</i> | 2011–2013 |
| <i>Subcommittee on STEM-plus proposal organized by Frost VP</i> | AY2010–2011 |
| <i>Faculty Council Core Curriculum Committee</i> | AY2010–2011 |
| <i>Search Committee for Department Chair</i> | AY2010–2011 |
| <i>Search Committee for Computer Science Faculty (chair)</i> | AY2008–2009 |
| <i>Search Committee for Computer Science Faculty</i> | AY2007–2008 |
| <i>Faculty Council Core Curriculum Committee (sabbatical replacement)</i> | Fall 2007 |
| <i>Search Committee for Computer Science Faculty (chair)</i> | AY2006–2007 |
| <i>Search Committee for Computer Science Faculty (chair)</i> | AY2004–2005 |
| <i>Search Committee for Electrical and Computer Engineering Faculty</i> | AY2004–2005 |
| <i>Task Force on Email organized by the Vice President for ITS</i> | AY2004–2005 |
| <i>Academic Technology Advisory Committee (College representative)</i> | AY2004–2005 |
| <i>Computer Science Curriculum Committee (ad hoc member)</i> | 2003–present |
- **Loyola University Chicago**
 - Undergraduate Program Director for Computer Science. AY2000-2002
 - Committee Membership,

| | |
|---|------------------|
| <i>Computer Science Curriculum</i> | AY2002–2003 |
| <i>Undergraduate Computer Science Curriculum (chair)</i> | AY2000–2002 |
| <i>Undergraduate Computer Science Curriculum</i> | AY1999–2000 |
| <i>Academic Council of the College of Arts and Sciences</i> | |
| <i>Computer Science representative</i> | AY2001–2003 |
| <i>Curriculum Committee</i> | AY2002–2003 |
| <i>Search Committee for Chair of Computer Science</i> | AY2001–2002 |
| <i>Search Committee for Chair of Computer Science</i> | AY2000–2001 |
| <i>Finnegan-Rammler Scholarship Selection</i> | 2001, 2002, 2003 |
 - Academic Advisor, summer orientation for incoming CAS Freshmen 2001

COMMUNITY SERVICE

- **Organizer and Leader** of the after-school *Computer Science Club* at Cardinal Ritter College Prep High School Fall 2018
- **Presenter**, Saint Louis Priory School, Careers & College Majors Seminar 2017, 2018
- **Organizer and Leader** of the after-school *Computer Science Club* at Meramec Elementary School, a weekly activity for students in grades 3–5 (12 weeks, 48 students) Spring 2015
(12 weeks, 48 students) Fall 2009
(12 weeks, 48 students) Fall 2008
- **Assistant**, Meramec Elementary School, “Hour of Code” sessions December 2014
- **Presenter**, Meramec Elementary School, STEM Career Day May 2014
- **Mentor**, Meramec Elementary School, First Lego Robotics team 2014
- **Advisory Board Member**, Hazelwood High School, Computer Science Pathway 2014
- **Advisory Board Member**, Clyde Miller Career Academy, Database Management program 2014
- **Scholarship Committee Member** for St. Louis Chapter of the Society for Information Management (SIM) 2012
- **Organizer and Leader** (with David Letscher) of workshops for secondary educators, hosted by the Department of Mathematics and Computer Science at Saint Louis University.
- *Scratch Programming* 5 June 2010
- *Python Programming* 4 June 2010
- **Presenter** of an 85-minutes session titled *Bringing Computer Science to K–12 Using Scratch*, at the Fall Conference of the Math Educators of Greater St. Louis (MEGSL). 13 Nov 2009
- **Consultant and trainer** for the non-profit organization *Catch a Falling Star*, regarding after-school activities using the Scratch programming language. Fall 2009
- **Presenter** of 1-hour lesson on Map Coloring at the Math Teacher’s Circle, Washington University 1 Apr 2008
