

Midterm 1 Information

- The first midterm will be on Thursday, 20 February 2003, from 2:30–3:45 p.m.
- This exam is closed book and no calculating devices of any type will be allowed. You are allowed, however, to prepare in advance the back of this page with whatever notes you wish to place on it, and you may use this page during the exam. When the exam is over, staple this sheet to the rest of your exam.
- The midterm will consist of 10 questions and you will have 75 minutes to complete the exam.
- The exam will cover all lectures, readings, and assignments up to and including the lecture on Thursday, 6 Feb 2003. (please see the class schedule for exact coverage)
- As a sample, we will provide you with the first midterm which was used last semester in this course, as well as with the solutions to that exam. Keep in mind that the exact coverage of topics varies from semester to semester, so this sample is meant mostly as an example of the *style* of the questions, as opposed to the precise content of the questions.
